

5 in 1 Anti-Corrosion Wipes

Technical Data Sheet

Date of Preparation: December 23, 2025

DESCRIPTION

S2S 5 in 1 Anti-Corrosion Wipes are disposable, lint-free cloth wipes infused with a proprietary corrosion inhibitor. They are designed to clean, lubricate, and protect metal surfaces in a single step while leaving behind an ultra-thin, corrosion-inhibiting film that is dry to the touch.

The infused corrosion inhibitor polar bonds to metal surfaces, displacing moisture and helping to prevent rust and corrosion on treated components. The ultra-thin film provides corrosion protection without leaving a greasy or oily residue, making the wipes suitable for routine maintenance, touch-up, and light-duty corrosion protection.

KEY FUNCTIONS (5 IN 1)

- Cleans light surface contamination
- Displaces moisture
- Lubricates moving parts
- Leaves a corrosion-inhibiting protective film
- Provides dielectric protection

FEATURES

- Infused with a proprietary corrosion inhibitor
- Polar bonds to metal surfaces
- Leaves an ultra-thin, dry-to-the-touch protective film
- Displaces water and oxygen
- Provides lubrication for light-duty applications
- Compatible with electronics, rubber, and plastics
- Low VOC formulation
- Convenient, disposable cloth wipes
- Durable cloth will not snag or tear easily

USES

- Tools and equipment
- Machinery and mechanical components
- Electrical connectors and terminals
- Control boxes and enclosures
- Marine hardware and fittings, hinges, fasteners, and small moving parts
- General maintenance and corrosion touch-up.

APPLICATION

1. Remove excess dirt or debris from the surface.
2. Wipe the surface thoroughly using an S2S 5 in 1 Anti-Corrosion Wipe, ensuring full coverage of the area to be protected.
3. Use as part of a regular cleaning and maintenance routine. Reapply as needed to maintain protection.

Painting over S2S 5 in 1 Anti-Corrosion Wipes is not recommended, as adhesion may be reduced.

5 in 1 Anti-Corrosion Wipes

Technical Data Sheet

Date of Preparation: December 23, 2025

REMOVAL

The corrosion-inhibiting film does not typically need to be removed. If removal is desired, wash the surface with a high-pH detergent and water.

DISPOSAL

Dispose of used wipes and packaging in accordance with applicable regional, national, and local laws and regulations.

STORAGE

Store in a cool, dry place with the container sealed when not in use. Shelf life 3 years.

TECHNICAL CHARACTERISTICS

TYPICAL CHARACTERISTICS — NOT SPECIFICATIONS

- Film type: Ultra-thin, non-hardening corrosion-inhibiting film
- Film behavior: Dry to the touch; non-greasy
- Corrosion protection mechanism: Polar bonding and moisture displacement
- Cure time: None

AVAILABLE PACKAGING

Box of 10 (individually wrapped)

Case of 12 Boxes (120 Wipes total)
